## 3. Coverage

Approximately 10-12 m<sup>2</sup> per litre or 0.08 –0.1 litre per m<sup>2</sup>

## 4. Thinners

earthBorn Natural Thinners or Isoparaffin

## 5. Properties

earthBorn Oil-based Eggshell has been formulated from traditional paint recipes with a natural oil base. It is a high solids content paint and therefore has excellent covering properties and good flexibility. It has a satin sheen finish, is washable and easy to apply.

## 6. Preparation

Surfaces must be sound, absorbent, dry, clean and free of dust and grease. For new wood sand and apply a priming coat of earthBorn White Undercoat diluted with 5-10% earthBorn Isoparaffin or Natural Thinners.

Prime new metal with Red Oxide Primer and apply earthBorn White Undercoat.

Lightly sand all previously painted surfaces.

## 7. Application

Stir thoroughly before use. earthBorn Eggshell can be applied with a brush, roller or spray gun. For best results, apply a coat of earthBorn White Undercoat (in addition to any priming coat), lightly sand and then apply two coats of earthBorn Eggshell. Allow paint to thoroughly dry between coats.

## 8. Drying Time

Depending on the temperature and the Relative Humidity, touch-dry after approximately 2-3 hours but allow 8-10 hours drying time between coats.

## 9. Cleaning

Tools can be cleaned with earthBorn Natural Thinners or Isoparaffin. Wash hands using Hand Cleaner if necessary.

## 10. Storage

Keep containers tightly sealed and store in a cool, dry and frost-free place.

Shelf life is a minimum 2 years for unopened containers when stored under optimum conditions.

## 11. Safety

Please refer to the Material Safety Data Sheet

## 12. Ingredients

Ground marble, silica acid, processed soya oil, soya-based alkyd, titanium dioxide, isoaliphate, d-lemon, cobalt, zinc and zirconium salts as desiccants.

## 13. Disposal

After being allowed to dry, earthBorn Interior Eggshell can be disposed of by normal waste disposal methods. (Refer to local authority guidelines if necessary) It should not be emptied into drains or watercourses.

*Our standard colours are made using a traditional batch process so there may be slight colour variations between batches and the colour chart. Whilst every precaution is taken to ensure colour continuity, please make sure you have sufficient paint from the same batch to complete your work.*

*The user is recommended to test the product on the intended surface to ensure its suitability*
